Timber Framing: You want a classic, traditional home. Or maybe a modern, simple home. Whatever the look, you know you want your home to be energy efficient and use sustainable building materials and practices. Since 1974, we have focused on great design from the beginning so your home will not only look and feel just the way you pictured it but it will be energy efficient, durable, and easy to maintain. Every home begins with a great design to make sure the entire building experience is fun & simple. A TIMBERPEG® home is a legacy that can be passed down for generations. Those who inhabit it will enjoy these benefits for decades, or even centuries.
