

Visionary Partners 2015

Our offering to Visionary Partners (VP) is designed to provide substantial value to member companies in several ways:

- Providing greater **exposure** within and outside the TFG
- Creating greater **marketing** visibility for potential clients by leveraging the TFG's web and conference capabilities
- Offering significant **discounts** on the cost of services normally purchased ala carte for TFG (memberships, conferences, advertising etc.)
- Providing VP's with public **recognition** as leaders in our industry

The program has proven to be—and will continue to be—a strong source of revenue and goodwill that supports the Guild's strategic vision for **Community Building**, **Communication**, and improving the **Craft** of timber framing.

VP funds are used for continuing improvement, operational excellence, adding to our educational and apprenticeship opportunities, improving member communications, expanding and strengthening TFG publications and increasing the market for timber frames.

We offer Visionary Partners a bundle of TFG services at considerable discounts with a payment plan which makes these services affordable. There are three levels of participation for you to consider.

Visionary Partner Program: Timber Frame Company
